**HEALTH OFFICER'S REPORT — 1958**

There have been no serious epidemics of contagious diseases in Pownal this past year. A few scattered cases of chicken pox, measles and mumps.

A clinic each school month, with the exception of September, was held for immunization of diphtheria, whooping cough and tetanus. Grades 1-4-7 received physical examinations. Three pre-school health conferences were held during the summer months. Several clinics were held for polio inoculations.

We hope all adults who are able will take advantage of the adult clinics for polio inoculations.

Respectfully submitted,

MARY VOSMUS, R. N.,

Local Health Officer.

**ANNUAL REPORT OF PUBLIC HEALTH NURSE  
POWNAL — 1957**

The effectiveness of the public health nurse's work in Pownal has been determined by the Parent-Teacher's Club, and the town officials' planning with the nurse to solve community health problems.

Physical examinations were continued this year. Sixty-nine children were examined by Doctor Williams, school physician. Fifty-two children received individual hearing tests. All children in the first grade were tested, five were found with defects. Immunization was offered to all children as part of the physical examination. As part of the school program the nurse made home visits according to the need and to interpret physician's recommendations and to assist in planning for medical care and correction of defects. One child is under medical supervision of State Crippled Children's Clinic.

Your nurse again participated in three town sponsored polio clinics, 225 children attended.

Although four child health conferences were held in Pownal only 38 children attended. The reason, apparently, was due to the fact that polio was foremost in everyone's mind. The child health conference is where children under school age are given the opportunity for physical examinations and parents have an opportunity to talk over health habits with the examining physician. The attendance compared with previous years showed a decrease of 27% in child health conferences. Emphasis should be placed on young children having facilities for continuous medical supervision. With 95% of the Pownal children protected against polio, we hope the interest will be aroused so that more children will have the opportunity for service.

I wish to thank town officials, teachers and volunteers who have supported your health program. It has been a pleasant experience working with you. As we go into 1958 the need for every citizen to support the health program is necessary.

Respectfully submitted,

Division of Public Health Nursing

CLARICE B. PURCELL, R. N.,

### **TOWN CLERK'S REPORT**

Since the printing of the last Annual Report, 16 marriages, 13 births and 18 deaths have been recorded.

Respectfully submitted,

CLAUDE L. SNOW,

Town Clerk.

## **REPORT OF THE SUPERINTENDENT OF SCHOOLS**

To the School Committee Members and Citizens of Pownal, I present the following report.

The only change in the teaching staff for this year was at the Hodsdon School where Mrs. Lillian Perkins was hired to teach grades one and two. Mrs. Alverna Newcomb, a permit teacher, continued to teach at West Pownal.

I believe everyone is aware of the crowded conditions in our schools. Such conditions are unfair to the children and their teachers. The town should be planning toward replacement of its present school buildings. If help is to come from the state or national level it will be only after considerable effort is made at the local level. Look at your schools and then decide whether or not you should start planning today.

Working conditions and the salaries we pay make it almost impossible to keep certified teachers or hire replacements. Again the School Committee is recommending an increase in teachers' salaries. We will still be below the salaries paid by most towns but will have considerably narrowed that difference.

The usual repairs were carried on during the summer. Desks were purchased for two buildings. It is planned that one more building be supplied with new desks by next fall.

Teachers should receive your cooperation and your thanks. Visit your schools, talk with your teachers, and insist that your children do their best. Parents and teachers must work together for better education for the children of Pownal.

Respectfully submitted,

JAMES B. MORRISON, JR.,

Superintendent of Schools.

### FIRE WARD'S REPORT

This year we have answered calls to five chimney fires, two woods fires and three grass fires.

We have also responded to one call each from Durham, Freeport, Yarmouth and North Yarmouth.

We added new Indian pump and tanks to take the place of those that were not in good working order.

After the bills for upkeep were paid there was enough money to add about 250 feet of new hose.

We would recommend the same amount of money be appropriated for fire accounts.

Respectfully submitted,

JOSEPH H. PERVIER,

Fire Ward.

## HEALTH OFFICERS REPORT

To the Citizens of Pownal:

Two adult polio clinics were held last spring with moderate attendance.

A pre-school clinic was held during the summer. Physicals were given grades 1 - 4 - 7 including T. B. patch tests. Other school clinics will be held during the year.

There was one case of scarlet fever, a few cases of mumps, and numerous cases of chicken pox, the most of which were not reported to the health officer.

Citizens are required by state law to report all contagious diseases to their local health officer.

Respectfully submitted

MARY VOSMUS, R. N.

Health Officer

## PUBLIC HEALTH NURSE

Your Parent Teachers Club has been invaluable in arranging the health program for the greater good of all citizens, regardless of age. This program needs the support of every citizen. Providing nursing service is not enough, the community must be convinced to take advantage of the service and facilities offered to parents of children needing these facilities.

Twenty-two interviews and conferences were held with interested individuals, teachers, school board members, in order to carry out the planned program.

Fifty attended the adult polio clinic sponsored by the Parent Teachers Club offering third immunization. Twenty-eight received their first immunization with the understanding they were to obtain their second from their family physician.

The school health program included individual hearing tests for all children in first grade and those referred in other grades by their teacher. Six children were found to have suspicious loss of hearing and were referred to clinics or family physician for further examination. Ten pupils had eyes rechecked after referral from the teacher.

This year from the Department of Education came a suggested change in the school health examination. In accordance with the new minimum standards for school examination, pupils in selected grades were to have added urine testing, blood testing for anemia and tuberculosis tests. Your nurse assisted Doctor Williams in carrying out this procedure in selected grades except for one school. Due to some misunderstanding examination was given only to those children whose parents brought them to the examining room. Of the 87 children examined the defects found were as follows:

Heart murmur	1
Ear defect	1

---

Skin infection	1
Speech defect	1
Overweight	1
Suspicious anemia	1

During the nurse's home visiting to families where I am doing health supervision in interest of infants, pre-school and school children and adults, I have used the reports of school examination and discussed the physical findings with parents and encouraged correction on medical supervision. In general the response has been very good but there are some parents who did not take the responsibility of the health of their child.

One of the accomplishments in infant and pre-school child care has been the recognition of the importance of continuing health supervision for this age group. This was supplied through four child health conferences which were held in Pownal.

Attendance	42
Infants	9
Pre-school children	30

Number of children vaccinated for smallpox - one infant six over four years.

Number of children protected against diphtheria - 18.

Number of children protected against polio - six infants - 22 over four years.

Smallpox vaccination is just as important as other immunization and in the coming year emphasis should be placed on smallpox and other immunization in early infancy.

I would like to thank individuals, town officials, superintendent of school and teachers, and Parent Teachers Club for their past support. It is always a pleasant experience working with people of Pownal.

Respectfully submitted

CLARICE B. PURCELL, R. N.

Div. of Public Health Nursing

## FIRE WARD'S REPORT

There were eleven calls this year. It being a quite wet season, there was little trouble from forest fires. There was only one call for woods fire, that being on June 7th. There were five calls for chimney fires, one call where nothing but smoke was found.

We had one fire in a vacant house that was put out with little damage. The Carter house, however, was completely destroyed, but by prompt help from Freeport, Yarmouth, North Yarmouth and our own tanks the barn was saved as well as the wood shed connected with the house.

After paying bills for regular expenses there was \$585.00 which will be used to buy new equipment.

Respectfully submitted

JOSEPH H. PERVIER

Fire Ward

## Report of Superintendent of Schools

To School Committee Members and Citizens of Pownal:

Pownal schools opened in September with an enrollment of 164. Mrs. Alice Smith returned to Pownal and started teaching at the Center Intermediate School. All other positions were filled by the same teachers as last year.

Nothing has been done to alleviate the crowded conditions at the Hodsdon School, Center Intermediate or Center Grammar Schools. Plans are being made to more evenly distribute the pupils over the entire five schools and to decrease the number of grades at North Pownal and West Pownal. Although this will mean added conveyance costs it seems the only fair way when we consider what is best for all children.

It appears that the first opportunity to make real progress in the education of Pownal children may come through the application of the Sinclair Act. I urge you to study the provisions of this law and the advantages and disadvantages of an administrative school district.

Respectfully submitted,

JAMES B. MORRISON, JR.

## Warrant for Town Meeting

To Joseph H. Pervier a constable in the Town of Pownal  
in the County of Cumberland and State of Maine.

Greetings:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of said Town of Pownal qualified by law to vote in town affairs, to assemble at the town house in said town on Monday the 14th day of March, A.D. 1960 at 1:30 o'clock in the afternoon to act on the following articles to wit:

Article 1. To choose a moderator to preside at said meeting.

Article 2. To elect the following officers to wit: town clerk, selectmen, assessors of taxes, overseers of the poor, treasurer, collector of taxes, superintending school committee, road commissioner, cemetery commission and fire ward.

The polls will open at the town hall at 1:30 o'clock in the afternoon and will close at 7:00 in the evening.

Election by secret ballot.

Action on all further articles will continue at 8:00 o'clock in the evening of March 14th, 1960.

Article 3. To hear the reports of selectmen, treasurer, Superintendent of Schools, and other officers' reports and act thereon.

Article 4. To receive and allow accounts against the town if found correct.

Article 5. To see what sum of money the Town will vote to raise and appropriate for Support of Schools: Administration, Instruction, Attendance and Health Services, Pupil Transportation Services, Operation of Plant, Maintenance of Plant, Fixed Charges, Outgoing Transfer Accounts (Tuition).

Article 6. To see what sum of money the town will vote to raise and appropriate for the support of the poor.

Article 7. To see what sum of money the town will vote to raise and appropriate for mother's aid, board and care, or act anything relative thereto.

Article 8. To see what sum of money the town will vote to raise and appropriate for the salaries of town officers.

Article 9. To see what sum of money the town will vote to raise and appropriate for contingent expenses.

Article 10. To see what sum of money the town will vote to raise and appropriate for State aid road construction (in addition to the amount regularly raised for the care of ways, highways and bridges) under the provisions of Sections 44, 49 and 50, Chapter 23, Revised Statutes 1954, as amended, or act anything relative thereto.

Article 11. To see what sum of money the town will vote to raise and appropriate for winter roads and tractor repair.

Article 12. To see what sum of money the town will vote to raise and appropriate for common roads, or act anything relative thereto.

Article 13. To see what sum of money the town will vote to raise and appropriate for cutting bushes on the highways.

Article 14. To see what sum of money the town will vote to raise and appropriate for repair of bridges and culverts.

Article 15. To see if the town will vote to raise and appropriate a sum of money for the purchase of snow fence, or act anything relative thereto.

Article 16. To see what sum of money the town will vote to raise and appropriate for the expenses of the fire ward or act anything relative thereto.

Article 17. To see if the town will vote to raise and appropriate a sum of money for the expenses of the town hall, or act anything relative thereto.

Article 18. To see what sum of money the town will vote to raise and appropriate for the care of cemeteries.

Article 19. To see if the town will vote to authorize the selectmen and treasurer to borrow by temporary loan such a sum of money, not to exceed twenty thousand dollars, as may be necessary to pay the bills of the town, in anticipation of unpaid taxes for the municipal year of 1960, or take any action relative thereto, subject to the provisions of the Revised Statutes of the State of Maine.

Article 20. To see if the town will vote to authorize the Selectmen to borrow on the credit of the town, a sum sufficient to cover the running expenses of the town in the interim between the annual Town Meeting and April 1, 1960.

Article 21. To see if the town will raise and appropriate \$100.00 for public health nursing in Pownal, said sum to be expended by the Maine Department of Health and Welfare, Bureau of Health, for local service.

Article 22. To see whether or not the town will vote to raise and appropriate the sum of twenty-five dollars (\$25.00) to be paid to the State of Maine Publicity Bureau to be expended and used for advertising the natural resources, advantages and attractions of the State of Maine in accordance with provisions of Chapter 91, Section 108, of the Revised Statutes of 1954.

Article 23. To see if the town will set a time when the taxes for 1960 shall be paid.

Article 24. To see if the town will vote to authorize its selectmen and treasurer to execute release deeds, for and in its behalf, and for such considerations as they deem proper, in all cases where the town holds tax lien certificates on which the right of redemption has expired, and recorded and unrecorded tax deeds of real estate therein.

Article 25. To see if the town will vote that a discount shall be made to those who voluntarily pay their taxes in money to the collector on or before a certain date.

Article 26. To see if the town will vote to fix the compensation of its road commissioner, selectmen, and other town officers; also the compensation of men, teams and trucks or act anything relative thereto.

Article 27. To see if the town will vote to raise and appropriate the sum of \$200.00 to co-operate with the Maine Forest Service and the Federal government in the control of the white pine blister rust in accordance with Revised Statutes, Chapter 36, Section 69.

Article 28. To see if the town will vote to raise and appropriate a sum of money to tar the road built with the Town Road Improvement money in 1960 or act anything relative thereto.

Article 29. To see if the town will vote to raise and appropriate a sum of money for Civilian Defense, or act anything relative thereto.

Article 30. To see if the town will vote to authorize the assessors to raise the valuation toward conforming to the State valuation.

Article 31. To see what sum of money the town will vote to raise and appropriate for interest.

Article 32. To see what sum of money the town will vote to raise and appropriate to create a school building fund, or take any action relative thereto.

Article 33. To see what sum of money the town will vote to raise and appropriate for social security, or act anything relative thereto.

Article 34. To see what sum of money the town will vote to raise and appropriate for workmen's compensation insurance or act anything relative thereto.

Article 35. To see what action the town will take toward establishing a Town Dump and raising and appropriating a sum of money for the same or act anything relative thereto.

Article 36. To see if the town will vote to raise and appropriate the sum of \$1,000.00 to go with what money the fire department already has toward building a fire house.

The selectmen give notice that they will be in session for the purpose of correcting the list of voters, hearing and deciding upon said list, at the town house in said town at one o'clock in the afternoon on day of said meeting.

Hereof fail not and make due return of this warrant with your doings thereon, to one of us on or before the day of said meeting.

Given under our hands at Pownal this 8th day of  
February 1960.

## Health Officer's Report

To the Citizens of Pownal:

There have been relatively few cases of communicable diseases this year. Six cases of chicken pox, two cases of german measles, one case of mumps, and several cases of influenza.

Pre-school clinics were held during the summer and two clinics this winter with physicals for grades one, four, and seven.

Free vaccinations for small pox will be offered to all, at a later date this spring, also inoculation against diphtheria, whooping cough, tetanus, and poliomyelitis of all children under sixteen years of age.

Respectfully submitted,

MARY VOSMUS, R.N.

Health Officer

## Public Health Nurse

At the year's end it is again appropriate to give you an account of public health nursing services in your community for the year 1959.

The primary purpose of public health nursing is to provide nursing service to people at home, at school, at work, in clinic and health centers so that individuals, families and the community as a whole will be helped to achieve and maintain optimum health. Public health nursing is one of the basic health services that contribute to a healthy and happy way of life.

Health is priceless possession, defined by the World Health Organization as "a state of complete physical, mental, social well-being and not merely the absence of disease or disability. It is wisely said that public health is people, who are so concerned with good health for themselves, their neighbors, and their community that they work for this priceless possession. This wise saying

guides us well, for nowhere in our state do we have the number of public health nurses we need to give all the services we would like to give. It follows, then, that a successful public health nursing program does, and indeed should, depend largely upon the interest, support, and volunteer work of the local people, individually and through organized group effort. The public health nurse gives directly those services that require her special professional nursing skills and gives leadership and counsel to townspeople in developing cooperatively the health programs more suitable for their own community.

Your public health nurse submits the following summary of public health nursing services in Pownal for the past year.

Sixty-two home visits were made in Pownal in the year 1959. What does this mean? It means follow-up home visiting was made to infants and school children and their families under the care of the State Crippled Children's Services in interest of crippled children, cerebral palsy, mental retardation, and cleft palate to help families carry out the doctor's instructions for treatment, always working closely with the family physician who has referred the child to Crippled Children's Services. Visits are made to parents of other school children referred with health problems by the teachers or school physician.

Three visits were made for detection and follow-up of tuberculosis.

As part of the school health program 48 children's hearing was tested with the Maico machine. Two children were found to have hearing difficulty. Twenty-seven children, who were referred by teachers, had their eyes rechecked and six children were found with eye defects. The parents of four of these children took their responsibility and had corrections made. Some

lack the interest in the child and their child's education to be concerned with correction.

Two, and not four, child health conferences were held in July and August with an attendance of 24 children. The attendance in previous years has been well over forty children. Many well children under six years of age are not receiving regular medical supervision by their family physician. The Pownal Parent Teacher's Association, who sponsor the health program should question why. Was it lack of suitable quarters for examination? Did the parents receive an invitation by card? Do the parents understand that well infants and preschool children need health appraisal through physical examination by the conference physician? Continuity of medical health supervision prepares the child for entrance into school in the best health.

Although your immunization picture is good, you should not relax your program. This can be done through concentrated effort in education of parents as to the value of the fourth polio immunization.

Accomplishment in a health program is evidence of ability of people to work together. Together problems get evaluated and solved. This can be achieved through the interest of every citizen, town official, and service club.

Plans for physical examinations in the schools are made for January 27, 1960 with school physician Doctor Ralph Williams.

I appreciate the support of the town officials, teachers, and volunteers. May I hope for a well planned health program in the year to come.

Respectfully submitted,

CLARICE B. PURCELL, R.N.

Division of Public Health Nursing

## Fire Ward's Report

In the past year the fire department has answered 16 calls which has included a call to Freeport and four to Durham.

A 32 foot extension ladder and 4 Indian Pumps have been replaced and a large fan to use as a smoke ejector has been added to the equipment.

A school of instruction sponsored by the state board of education on use of fire equipment was held and well attended by members of the department. Harold Jones of Falmouth was the instructor.

A drill for using fog on automobile fires and two for pump operation have been held. Other activities include membership in the Cumberland County Fireman's Association, a rifle raffle, naming Joseph Pervier as honorary chief, license plate markers for member's cars and Civil Defense I. D. cards.

Members of the department ask your careful consideration and support of our project to construct a fire station at the center.

Many thanks to department captains, members and citizens for your support and cooperation.

For fire or emergency help dial 8-2371.

Meetings held 2nd Wednesday night of the month — at the town hall. Visitors welcome.

Fire Captains Felton Pervier - Everett Petto.

Respectfully submitted,

**EARLE A. BLAKE**

Fire Chief

## Report of Superintendent of Schools

To School Committee Members and Citizens of Pownal:

Pownal schools opened in September with an enrollment of 156. Mrs. Mary McCurdy started teaching at the West Pownal School and James Hodgdon at the Center Intermediate School. Transportation was provided for North Pownal and West Pownal Schools so that grades one through four could be housed at West Pownal School and five through eight at North Pownal. Grades housed at other schools remained the same.

The present system of housing the grades at different schools seems to be the most satisfactory arrangement. A large increase in pupil transportation would be necessary for a better distribution of pupils. Center schools are crowded, and will continue to be crowded until additional space is provided.

Pownal pupils are finding it increasingly difficult to attend high school. Higher high school standards and lack of transportation have resulted in a decrease in our secondary school enrollment from fifty-nine, last year, to forty-two this year.

It still appears that the first opportunity to make real progress in the education of Pownal children may come through the application of the Sinclair Act. I urge you to continue to study the advantages and disadvantages of an administrative school district.

Respectfully submitted,

JAMES B. MORRISON, JR.

## Health Officer's Report

To the Citizens of Pownal:

Pownal has had an average number of mild communicable diseases this year including mumps, chicken pox, and measles. There were quite a number of cases of influenza which were not reported to the health officer.

Clinics were held for school children grades 1-4-7. These included physical examinations, T.B. patch test, blood test, and urinalysis. These clinics were made possible through the efforts of Mrs. Earle Blake who has been in charge of the school health program sponsored by the Pownal Center Mothers Club.

One immunization clinic was held in April as required by law. This included smallpox vaccinations, inoculations against diphtheria, whooping cough, tetanus, and poliomyelitis. Prior to this clinic, cards were sent home by each pupil to determine the number who would require future inoculations. Due to the small number who would receive their first inoculation at that time it did not seem feasible financially to have more clinics last year, and the parents were advised to take their children either to their private physicians or to attend the child health conferences which are usually held during the summer.

Citizens are required by state law to report all contagious diseases to their local health officer.

Respectfully submitted,

MARY VOSMUS, R.N.

Health Officer

## Public Health Nurse

**Maine Department of Health and Welfare  
Division of Public Health Nursing, Bureau of Health  
Annual Report of Public Health Nursing Services in  
Pownal for the Year 1960**

Public health, in simple terms, is the sum total of the health of individuals and families living in a community. An organized program for public health is one that offers those individuals and families every possible chance of living and enjoying life, free from the handicaps of preventable disease and disability. In more formal terms, the objective of a public health program is to bring to all the people the benefits of modern medical and related sciences including the care and rehabilitation of the sick and disabled, the promotion of healthful living, and the prevention and control of disease.

A number of people are involved in the attaining of this objective. All together they make up a "health team." The public health nurse is an essential member of this team. She shares in planning and action with other workers in the fields of health, education, and welfare; with physicians, hospitals, clinics; with school personnel; with citizen groups. One of her important functions is coordination with the others involved to provide public health services to individuals, families, and community. Citizens of the community are also essential members of the health team. Alert to the health needs of their community, taking their share of responsibility to meet these needs, their contribution as health workers is indispensable to the effective-

ness of the public health program. A vital, dynamic, working "health team" in the local community strengthens the public health not only of that community, but also of the State and the Nation.

Your nurse tries to work closely with townspeople, individuals and P.T.A. The reason for this is that you will take the responsibility for developing the Health Program to meet your local needs. The public health nurse gives those services that require her special professional nursing and gives counsel to townspeople in developing cooperatively the Health Program most suitable to your own community.

In the spring, one immunization clinic, under the direction of the Health Officer and Dr. Williams, was held with a total attendance of 138. The largest percentage was school children. Fourteen of these children received their first Polio vaccine and should have received the second inoculation in a month's time but no facility was furnished by Pownal. This is a waste of town's money. One inoculation does not provide immunity against polio. The widespread use in the past year of Salk Vaccine is probably responsible for no case of Polio in Pownal.

In January 1960 and November 2, 1960, school examinations were given to pupils in the 1st, 4th, and 7th grades. These examinations included urinalysis, blood testing and TBC skin test. As part of the school program, Audiometer testing was given to all 1st graders and those referred by teachers. Nineteen pupils were referred for eye defects to be rechecked at the request of teachers. A larger number than previous year was

found in the West Pownal school.

Twenty-six visits were made to schools not including 20 nurse-teacher interviews. The increase in visits to schools was due to the fact that volunteer services were not available as in previous years. Also, this may be the reason why no Child Health Conferences were held this past year for infants and preschool children.

Five children were visited regularly who are under the care of the State Crippled Children's Service. This service helps families know the facilities and to assist them to carry out the physician's instructions for treatment. Home visiting is still an important part of public health nursing.

In the past three years, Pownal has been in the group where 90% of children have been protected against specific diseases. Emphasis should be placed on keeping this large percent protected against not only polio but diphtheria, tetanus and whooping cough as well as smallpox. There is work to be done in Pownal but it calls for combined efforts and working together.

I do appreciate the P.T.A.'s president of Center Pownal being interested and giving so much of her time to planning a program for Pownal. Through her all adults were offered a free Polio Clinic but it was a very poorly attended one. Free Salk Vaccine was furnished by the State Bureau of Health and the services of the doctor paid for by donations from the citizens attending this clinic.

Respectfully submitted,

CLARICE B. PURCELL

## Fire Ward's Report

In the past year the Fire Department has answered nineteen calls.

Although our present equipment is all in working order, we need to replace the old Chevrolet.

Activities were curtained due to the amount of time spent on the fire station.

About \$500.00 is needed to complete the project, and some repairs are needed at No. Pownal.

Citizens of the town owe many thanks to the boys who worked so hard on the fire station and for the donations.

I wish to invite anyone interested to come to Firemen's meeting and learn how to operate the equipment. Meetings are held the 2nd Wednesday night each month.

Many thanks to the members and citizens for their support and cooperation.

Respectfully submitted,

**EARLE A. BLAKE**

Fire Chief

## Report of Superintendent of Schools

To the Citizens of Pownal:

The first real opportunity for a major improvement in the education of Pownal children may come soon. Consolidation may be possible in the near future. The present Sinclair Law will not, however, solve the problem of this area without revisions. A revised law which may result from the recommendations of the Maine School District Commission would be most applicable. These revisions include the following:

1. A uniform tax effort based on State valuation for local suport of the foundation program.
2. School construction aid extended to provide State assistance on school debts assumed by the District.
3. The bonus increased from the present 10% to 15%.
4. An increase in the foundation program per pupil allowance.

An act to authorize the municipalities of Cumberland, North Yarmouth and Pownal to form a school administrative district has been scheduled to come before the One-Hundredth Legislature. This will make it possible for these towns to take advantage of any revisions which may be approved by the legislature.

You, the Citizens of Pownal, will make the final decision, and will not be asked to vote on a school district until you thoroughly understand the problems involved. I urge you to study the advantages and disadvantages of such a plan and be prepared to express an honest opinion.

Respectfully submitted,

JAMES B. MORRISON, JR.

Superintendent of Schools
